SUMMARY

Computer Science graduate with hands-on experience in Java Full Stack development. Skilled in building scalable web applications using Spring Boot, Hibernate, and MySQL. Proficient in developing REST APIs, implementing MVC architecture, and writing clean, maintainable code. Strong understanding of Git for version control and basic knowledge of cloud platforms (Azure/AWS). Eager to apply technical skills and contribute to impactful IT projects.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript

Web Development: Spring Boot, Hibernate, HTML, CSS

Cloud & Database: Azure, AWS (Basic), MySQL

Tools & Core: Git, Jupyter Notebook, Problem Solving, Agile

PROJECTS

Software Bug Prediction (Machine Learning)

Built a predictive Random Forest model to identify software defects, analyzing code metrics to improve software quality assurance. Benchmarked performance against Logistic Regression and KNN algorithms, achieving optimized accuracy for defect detection using Python.

Student Management System (Full Stack)

Designed and developed a full-stack CRUD application to manage student records using Java Spring Boot and MySQL. Engineered robust RESTful APIs to handle data retrieval and implemented MVC architecture to ensure code scalability. Integrated a responsive front-end interface using JavaScript and HTML, improving user interaction speed Backend: Java, Spring Boot, Spring MVC, Spring Data JPA, Hibernate.

Personal Portfolio Website (Web Development)

Interactive responsive portfolio with animations, dark mode, and tilt effects. Hosted via GitHub Pages.

INTERNSHIPS

Cyber Security | MASO Technologies Pvt Ltd

Gained foundational knowledge of security tools, network protection techniques, and best practices.

AI with Python (Microsoft) | Coincent

Developed understanding of AI concepts and applied them to small scale projects.
